

Remarkable Values Shown Here!

Manufacturers' Sale of Samples.

Prices One-Half and Less, than Regular

Our fortunate purchase of manufacturer's samples, displayed at the Auditorium last week, enables us to offer the biggest bargains ever shown in Topeka. Come to our store, see the wonderful values shown in our windows and if what you want is not displayed there you will find it inside. Our purchase was made at a very low sacrifice price and we in turn offer you the most remarkable saving of the season. Come early. Remember this is a sample sale and only one of each pattern is to be had.

YOUNG MARRIED PEOPLE

This is a saving opportunity for you to pass by without careful consideration. Just think of the big saving. Many pieces at half price and less. Besides, we always offer you the largest stock and lowest prices to select from and will gladly extend you payments, if you wish. Will deliver your purchase when most convenient to suit you.

WILL BE NO PARADE.

Convicted Dynamiters Will Be Received Quietly at Leavenworth.

Leavenworth, Kan., June 25.—No special arrangements were made at the federal prison at Fort Leavenworth today for the return of the "dynamite conspirators" cases who, under the terms of their release under bonds, must either surrender themselves to federal officials in Chicago today or return to the prison here. Thomas W. Morgan, warden, said the men would be "dressed in" and put to work as soon as they returned. The warden told newspaper reporters he would not permit the prisoners to be paraded and ordered that no photographs be taken.

Edward Smythe of Peoria, one of the men whose application for pardon was refused by President Wilson, returned to the prison on March 11, last, following the action of the United States supreme court in denying the labor men a review of their conviction. Two of the thirty-three men who entered the prison here January 1, 1913, already have been released on parole. They are E. E. Phillips of Syracuse, N. Y., and Charles Wachtmeister of Detroit, who were under sentence of one year and one day each. Both were paroled in July last year after having served seven months of their sentences.

Herbert S. Hockin of Detroit is serving his six-year sentence. Hockin did not apply for bond nor appeal his case with the others.

FIRST MORRIS COUNTY WHEAT.

Tom Allen of Council Grove Made Initial Shipment.

Council Grove, Kan., June 25.—Tom Allen, a farmer living one mile south of this city, shipped the first car of wheat to go out of Morris county of the 1914 crop. This wheat averaged 42 bushels to acre. While Morris county has never been classed as a wheat raising county, it usually has about 3,000 acres in wheat. She has over 10,000 acres this year, which will yield over 30 bushels per acre. "Morris county has also 3,500 acres of oats—more than ever before. It will run 60 bushels to the acre. Another crop in which a big increase in acreage is shown this spring is alfalfa. This has been increased to 21,000. The corn acreage for 1914 also shows a slight increase, there being 71,000 acres this year against 65,000 last year. Plenty of rain and ideal conditions for harvest of the wheat and oats and putting up the first crop of alfalfa have given Morris county farmers fond hopes of breaking all crop records this year.

RECLAIM CITY HALL.

Minneapolis Repairing Building—Formerly Public Place.

Minneapolis, Kan., June 25.—Workmen have commenced the repair work on the city hall building. The auditorium which occupies two-thirds of the second floor, is being plastered, and other improvements made, so that it will be possible to hold sessions of the council there as well as local court hearings.

This improvement will give, when completed, Minneapolis a most convenient and splendidly arranged city hall building and one which will not be surpassed by any similar sized town in the state.

KILLED FAMILY AND SELF.

Douglas County Man Shot Three and Committed Suicide.

St. Joseph, Mo., June 25.—Sam Brown laid in wait on a road north out of Fanning, Kan., late Wednesday afternoon, and when a buggy containing his wife and baby and father-in-law came along, he opened fire at them with a revolver, killing his father-in-law, Bob Jenkins, and his 7 months old child and probably fatally wounding his wife. Then he ran about a quarter of a mile into a field, removed his hat and coat, lay down on the ground, and shot himself dead.

PEARL LEADS JEWELERS.

Executive Committee Will Select Next Meeting Place.

Manhattan, June 25.—The annual meeting of the Kansas Retail Jewelers' association has ended here. Election of officers for the coming year resulted as follows: President, F. E. Pearl, Hutchinson; first vice president, Herman Ackerman, Marysville; second vice president, J. Q. A. Sheldon, Manhattan; secretary-treasurer, E. L. McDowell, Arkansas City. The executive committee will name the meeting place for next year.

DAM NOT DAMAGED.

Recent High Water Did Not Hurt New Plant at Blue Rapids.

Blue Rapids, Kan., June 25.—The new dam across the Blue river, recently completed by the Marshall County Power and Light company, was not damaged by the recent high water as has been reported, but a part of the wall built by a competing company was damaged.

The flood of 1903 cut a new channel and cribs filled with rock were used to return the water to its true channel. This company was organized last year with the intention of developing and making large improvements in the power, this spring outside capital was secured and a cement wall 250 feet long, 12 feet wide on the base and 15 feet high was built in front of the old cribs, making safe and permanent the old repair. In this work over 50 men, using a car of cement a day, were employed.

The only damage done during the present high water was the washing out of an old bank built 40 years ago of lime mortar and but two feet thick and over 15 feet high.

E. A. Wharton of Manhattan is the new president of this company. Mr. Wharton is a director of the First National bank of Manhattan. A director of the Building and Loan association there, and of a local lumber company and other interests.

C. M. Breese, a director of this company is also a director and acting officer of the First National bank of Manhattan.

Professor B. F. Eyer, also of Manhattan, is the engineer and general manager. He was formerly connected with the Topeka Electric light company at the head of the electrical department of the state college at Manhattan. He and Mr. Wharton bought and developed the electric light system at Manhattan, selling it within the past three years. He is now consulting electrical engineer, enjoying a state reputation for his ability and honesty.

The local owners at Blue Rapids with Dr. Ham of Topeka, are men who have lived here for over 20 years.

LOAN FUND FOR STUDENTS.

Pittsburg Club Women Adopt New System—Plan Others.

Pittsburg, Kan., June 25.—Club women of Pittsburg have come to the aid of the worthy and needy students at the Pittsburg State Normal. A loan fund has been established in a small way and a committee of the city federation is planning for larger things for the immediate future. Two students at the summer session have received financial assistance which will enable them to finish up their work. The committee now is endeavoring to collect money for the fund.

The students who show that they are deserving of aid will be loaned money at no interest for a year. After a year, interest will be charged, but it is planned to get the principal back as soon as possible in order that more students may be assisted. The intention is not to lend money to new students. Students who have partially completed their course and find themselves short of funds are to be beneficiaries of the loan fund.

SOLOMON BANK CHANGES.

Salina Man Becomes President—Other New Officers.

Solomon, Kan., June 25.—An important change has just been made at the Solomon National bank. Philip Carlson, a well known Salina county citizen, becomes president, succeeding Frank Hageman of Salina. Jason Simpson continues as vice president and T. T. Riordan as cashier.

Frank Hageman retains his place on the board of directors but Fred Eberhardt of Salina has resigned from the board and Mr. Carlson takes his place. Mr. Carlson will take his position as president of the bank about July 1.

Philip Carlson was born and raised in Salina county and is too well known in the vicinity to need introduction. For six years he was cashier of the Smolan State bank and for the past one and one-half years he has been employed as state bank examiner. He has had a great deal of banking experience and will make the bank a success.

A WOMAN WITH NERVE.

Captures Burglar Who Stole Her Husband's Watch.

Kinsley, June 25.—Mrs. Ole Vang established an enviable reputation for determination and nerve by capturing a burglar. Mrs. Vang had finished her work and had laid down on the bed to rest a few minutes. When she heard some one moving stealthily over the rugs, she was instantly alert and stepped into the dining room in time to see a man disappear and noted instantly that her husband's watch was gone from the table. She followed him a short distance and overtook the burglar a block east of the house. He denied having been in the house and finally consented to return but before doing so threw the watch into the weeds.

A neighbor had telephoned to the sheriff and he went at the scene of action. After some difficulty the man surrendered and went with the officer and recovered the watch.

CAPONIZED CHICKS HEAVY.

Roos County Man Solves Method of More Money.

Stockton, Kan., June 25.—Arthur Adams made a shipment of 15 caponized fowls the first of the month to a Kansas City commission house. They weighed 124 pounds when shipped, one died on the road, and the balance weighed 168 pounds when they got to market. They averaged eight pounds each and sold for 18 cents, about \$1.35 each, which is much better than handling roosters at 45 cents apiece on the Kansas City market, or half that in Topeka. Mr. Adams has done much caponizing the past year and finds it the best way to solve the summer egg problem. He has a few left, one of which is mothering ten little chickens.

THEATER ON LARGE BOAT.

Hutchinson Park Company Evades Sunday Blue Laws.

Hutchinson, Kan., June 25.—In order to evade a city ordinance which prohibits the giving of theatrical performances within the city on Sunday, the managers of Riverside park will provide a floating theater.

The park, about on the Arkansas river, a navigable stream, and the city limits extend to the river bank. The park managers will erect a floating stage on the river. On this the performances of Sunday will be given. As it will be beyond the city limits, Chief of Police George Hearn admits the city will have no jurisdiction.

The Crosby Bros Co

FRIDAY BARGAINS

The Third of Our Weekly Summer Specials
